- Free lesson plans for teachers, parents, and students on website
- Split into grade bands K-2, 3-5, and 6-12
- High School/Middle School unit with 12 topics relating to energy

Teachers

## Lesson Plans

**Our Lesson Plans are Kid Tested and Teacher Approved**

You and the State of Michigan both have high teaching standards. This is why we work directly with the experts to develop energy lesson plans. We employ state-certified teachers and work with energy experts on our team to craft lesson plans, so you can be confident they're on point and on track. You may inspire the next generation of STEM talent. At the very least, maybe they'll turn off the lights when they leave a room.
