Emergency Management and Homeland Security Division (MSP/EMHSD)

MSP/EMHSD District Coordinators

Local Chief Executives

Local Emergency Management Programs

Local Departments and Agencies

Public and Private Organizations/ Facilities

Local Support Jurisdictions
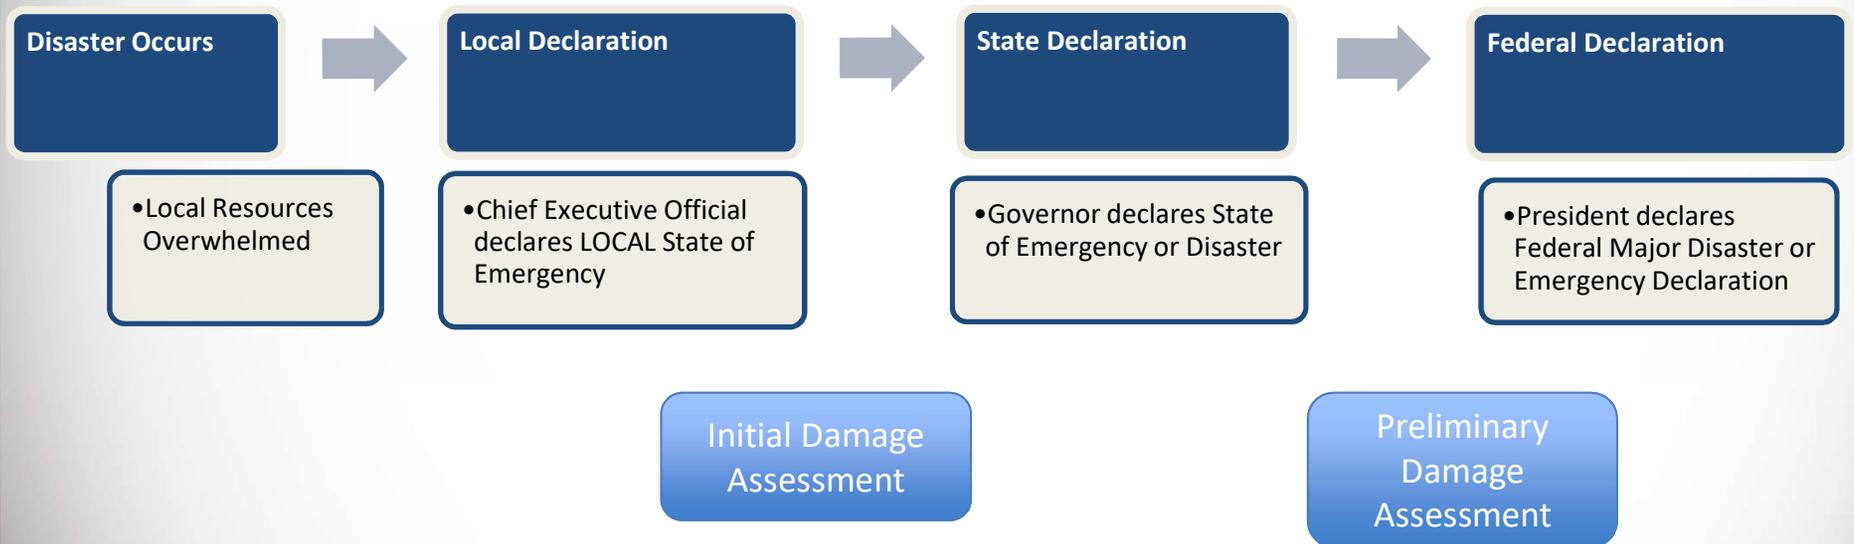

Private Sector Resources

ABOUT MSP/EMHSD

- Coordinates local, state and federal emergency management and homeland security activities across Michigan.
- Manages operations of the State Emergency Operations Center.
- Coordinates the utilization of state assets during and after emergencies and disasters.
- Coordinates various EM and HS federal grants.
- Provides training to state and local emergency responders.
- Prepares and maintains the Michigan Emergency Management Plan (MEMP).
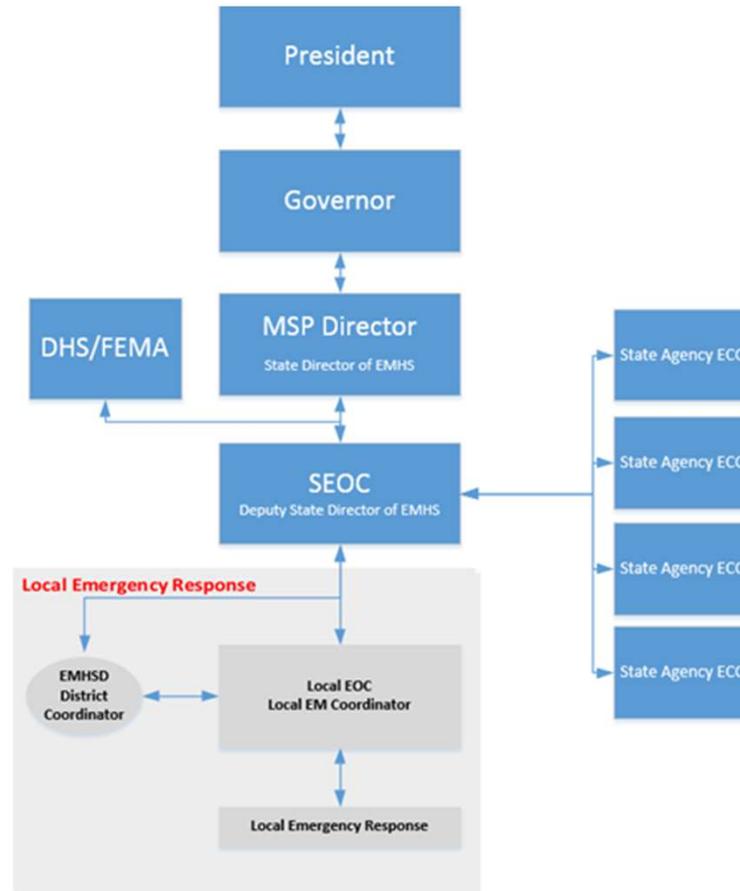

EMERGENCY/DISASTER PROCESS

Disaster Occurs	→	Local Declaration	→	State Declaration	→	Federal Declaration

- Local Resources Overwhelmed

- Chief Executive Official declares LOCAL State of Emergency

- Governor declares State of Emergency or Disaster

- President declares Federal Major Disaster or Emergency Declaration

Initial Damage Assessment

Preliminary Damage Assessment

STATE EMERGENCY OPERATIONS CENTER (SEOC)

- Coordinates state response activities.
- Procures and manage resources.
- Decision making.

- Coordinate and disseminate information (COP/SA)
- Manages recovery efforts.

- Revamped daily planning maps for Field Teams to refine operational areas and begin preparations for phase II team deployments. Set update interval for maps to 7:00 PM daily. New map refocuses efforts on residential only, and highlights only filter distributions for coverage.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- Configured an interface with AGOL to allow MDARD to live update food and water establishment statuses as it relates to the incident. Plan on building a dashboard to monitor status of these facilities for display in the SEOC.
- Coordinated with Flint City GIS to gather total counts for buildings and units per parcel. Still not delivered, but meeting late in the day confirmed the data is available.
- Built a data entry tool and deployed to the documentation unit for paper forms from field teams. No issues to report on this tool.

Notified April Swartout, no further action required.
****Jennifer Lixey Terrill - SEOC OPS Health and Env MDCH - lixeyterrillj@michigan.gov at 14:32:28 on 1/12/2016****

Request received from Captain Kelenske regarding a constituent calling regarding bathing an immunocompromised adult child. Captain requested a number that the constituent could call. Contacted A. Swarthout, Genesee County EPC, as no one was available in CD area. April reported that the staff are all at the lead testing clinic right now. Reported to Captain that I could talk to the constituent, but the Gov's office has already stated Dr. Wells will call the constituent.
